

Chill On!

## Chill On!

One year on Ambient Radio ... stay chilled!

Times have passed when spending your Sunday afternoon on the sofa, in worst case watching boring TV shows, you miss the right soundtrack for chill out support. For the last year you can chill along with "Chill On!", presented by Dense of Chillgressive Tunes from Hamburg.

"I know that voice from radio advertisings ..." some may say, and they are right. For many years Dense has worked as a producer for web radio commercial spots. So his connection to DJ Nesjaja, head of Berlin based Ambient Radios mother chromanova.fm since 1993, brought the idea to broadcast a weekly radio show regarding the diversified spectrum of ambient and chill out music. If you know Dense as a DJ on chill out floors, you can imagine his focus as the host of this weekly transmis-

sion is on uplifting melodic chill out sounds.

First time transmitted on the last Sunday in March 2010, it was time to celebrate the first birthday at the latest Gemischtwaren party in Hamburg. During April you can listen to samples of recordings in the show, including sets by DJ BlueSpace and Denses remix project Transistor.

Denses long lasting experience as a DJ and musician for almost two decades is a helping hand to pick out astonishing and stunning tunes. His connections to some important chill out labels guarantee to broadcast the freshest releases, as well as exclusive new live set recordings and some unreleased beauties!

So tune in every Sunday afternoon from 2 until 6 p.m. cet and join the

"Chill On!" transmission on Ambient Radio.

Besides "Chill On!" you can regularly listen to Dense on Ambient Radio every last Saturday at midnight with "Spacelight" - calm melodic tunes from outer space and beyond to drift away. Ambient Radio streams 24/7, you can launch directly on <http://85.25.86.69:8100/>.

Join the chillgressive tunes website or Facebook fan page to get the latest information.

### GMO vs Dense Through Other Glasses (Alter Records)

"The chillgressive views" describes a new experience of progressive chill out versions, by reworking the main melodies and uplifting moods, to explore and to groove.

Tested on many German and Canadian festivals during 2010, we are proud to present nine selected remixes by Dense of classic tracks by GMO, to satisfy the minds and ears of those who have been wanting new pathbreaking chill out tunes.
